

## INDEX

- Aminoacid metabolism in cystinuria, 205.
- Anaemia, aplastic, 75
- , haemolytic, chronic, association of Raynaud's phenomena and, and the formation of cold antibodies, 275.
- megaloblastic, of pregnancy and the puerperium, 187.
- Antibodies, cold, association of Raynaud's phenomena, chronic haemolytic anaemia, and the formation of, 275.
- Aplastic anaemia, 75.
- Artificial pneumothorax, 313; assessment at time of induction of pneumothorax, 317; course of pneumothorax, 319; pleural adhesions and their thorascopic section, 319; type of pneumothorax, 320; complications, 321; closure of cavities, 322; duration of institutional treatment, 323; premature abandonment of pneumothorax within three years, 324; assessment after three years, 324; abandonment of pneumothorax and assessment after expansion of lung, 325; follow-up of pneumothorax still maintained, 326; termination of pneumothorax in relation to relapse, 326; return to work, 327.
- Association of Raynaud's phenomena, chronic haemolytic anaemia, and the formation of cold antibodies, 275.
- Blood, cholinesterase activity of, and muscle in myasthenia gravis, 13.
- Blood-pressure in diabetes, 336.
- Bronchus, carcinoma of, 173.
- Carcinoma of the bronchus, 173.
- Cardiac failure, congestive, influence of intravenous digoxin on renal function in, 389.
- Cholinesterase activity of blood and muscle in myasthenia gravis, 13.
- inhibition and signs and symptoms in myasthenia gravis, 21.
- Chronic monocytic leukaemia, 131.
- Cirrhosis of the liver, infective hepatitis and, 421.
- Cold pressor response, mechanism and significance of, 261.
- Colitis, ulcerative, potassium deficiency in, 221.
- Contribution to the pathology of Sjögren's disease, 33.
- Correlation between the radiological appearances and the clinical and spirometric state in emphysema, 247.
- Cystinuria, aminoacid metabolism in, 205.
- Diabetes mellitus, heredity of hypertension in, 335; blood-pressure in, 336; relationship between hypertension and, 337.
- Digoxin, intravenous, influence of, on renal function in congestive cardiac failure, 389.
- Effect of tobacco on lung-volume, 141.
- Electrocardiogram in hypertension, 1; analysis of electrocardiographic groups in relation to clinical features, 3; cause of electrocardiographic abnormality, 5; effects of lumbo-dorsal sympathectomy on the hypertensive electrocardiogram, 7.
- Emphysema, correlation between the radiological appearances and the spirometric state in, 247.
- Endocarditis, bacterial, subacute, 93; underlying heart disease, 96; infecting organism, 101; foci of infection, 104; mode of onset, 105; penicillin treatment, 107; complications, 109; causes of death, 114; patients with negative blood cultures, 124.
- Felty's syndrome, 57.
- Goitre, nodular, toxic, hereditary and familial aspects of, 293.
- Haemophilia, occurrence of, in the human female, 299.
- Heart failure in acute nephritis, 163.
- , low salt treatment of, uraemia complicating, 149.
- Hepatic coma, observations on the symptomatology and pathogenesis of, 421.
- Hepatitis, infective, and cirrhosis of the liver, 403.
- Hereditary and familial aspects of toxic nodular goitre (secondary thyrotoxicosis), 293.
- Heredity of hypertension in diabetes mellitus, 335; heredity of essential hypertension, 335; blood-pressure in diabetes, 336; relationship between diabetes and hypertension, 337.

- Hypertension, electrocardiogram in, 1; analysis of electrocardiographic groups in relation to clinical features, 3; cause of electrocardiographic abnormality, 5; effects of lumbo-dorsal sympathectomy on the hypertensive electrocardiogram, 7.
- , heredity of, in diabetes mellitus, 335; heredity of essential hypertension, 335; blood-pressure in diabetes, 336; relationship between diabetes and hypertension, 337.
- Infective hepatitis and cirrhosis of the liver, 403.
- Influence of intravenous digoxin on renal function in congestive cardiac failure, 389.
- Intravenous digoxin, influence of, on renal function in congestive cardiac failure, 389.
- Iodine, radioactive, use of, in the assessment of thyroid function, 353.
- Leukaemia, monocytic, chronic, 131.
- Liver, cirrhosis of, infective hepatitis and, 421.
- Lumbo-dorsal sympathectomy, effects of, on the hypertensive electrocardiogram, 7.
- Lung-volume, effect of tobacco on, 141.
- Mechanism and significance of the cold pressor response, 261.
- Megaloblastic anaemia of pregnancy and the puerperium, 187.
- Muscle, cholinesterase activity of blood and, in myasthenia gravis, 13.
- Myasthenia gravis, cholinesterase activity of blood and muscle in, 13; cholinesterase inhibition and signs and symptoms in, 21.
- Nephritis, acute, heart failure in, 163.
- Observations on the symptomatology and pathogenesis of hepatic coma, 421.
- Occurrence of haemophilia in the human female, 299.
- Pneumonia, staphylococcal, primary, 43.
- Pneumothorax, artificial, 313; assessment at time of induction, 317; course of, 319; pleural adhesions and their thorascopic section, 319; type of, 320; complications, 321; closure of cavities, 322; duration of institutional treatment, 323; premature abandonment of, within three years, 324; assessment after three years, 324; abandonment of, and assessment after expansion of lung, 325; follow-up of, still maintained, 326; termination of, in relation to relapse, 326; return to work, 327.
- Potassium deficiency in ulcerative colitis, 221.
- Pregnancy, megaloblastic anaemia of, 187.
- Primary staphylococcal pneumonia, 43.
- Proceedings of the Association of Physicians of Great Britain and Ireland, 1951: Forty-fifth Annual General Meeting, 439.
- Puerperium, megaloblastic anaemia of, 187.
- Pulmonary infarction, radiological study of, 233.
- Radioactive iodine, use of, in the assessment of thyroid function, 353.
- Radiological study of pulmonary infarction, 233.
- Raynaud's phenomena, association of, chronic haemolytic anaemia, and the formation of cold antibodies, 275.
- Renal function, influence of intravenous digoxin on, in congestive cardiac failure, 389.
- Sjögren's disease, contribution to the pathology of, 33.
- Subacute bacterial endocarditis, 93; underlying heart disease, 96; infecting organism, 101; foci of infection, 104; mode of onset, 105; penicillin treatment, 107; complications, 109; causes of death, 114; patients with negative blood cultures, 124.
- Thyroid function, use of radioactive iodine in the assessment of, 353.
- Thyrotoxicosis, secondary, 293.
- Tobacco, effect of, on lung-volume, 141.
- Uraemia complicating low salt treatment of heart failure, 149.
- Use of radioactive iodine in the assessment of thyroid function, 353.
